

1    **What Is Claimed Is**

- 2    1.   A beach chair comprising two frames, a support located between and  
3       pivotally connected with the frames for supporting a user and a  
4       hydraulic cylinder connected between one of the frames and the  
5       support.
- 6    2.   The beach chair according to claim 1 wherein the hydraulic cylinder  
7       includes a lever movable from a first position where the hydraulic  
8       cylinder cannot be extended and shrunk and a second position where  
9       the hydraulic cylinder can be extended and shrunk.
- 10   3.   The beach chair according to claim 1 including two brackets each for  
11       connecting corresponding one of the frames with the support.
- 12   4.   The beach chair according to claim 3 wherein each of the frames  
13       includes an axle, and each of the brackets includes a collar installed  
14       on corresponding one of the axles.
- 15   5.   The beach chair according to claim 4 wherein each of the brackets  
16       includes two rods connected between the collar and the support.
- 17   6.   The beach chair according to claim 5 wherein each of the brackets  
18       includes a reinforcement plate connected between the rods.
- 19   7.   The beach chair according to claim 1 wherein the support includes  
20       an upper portion formed as a backrest, a middle portion formed as a  
21       seat and a lower portion formed as a stool.
- 22   8.   The beach chair according to claim 7 including two brackets each for  
23       connecting corresponding one of the frames with the support.
- 24   9.   The beach chair according to claim 8 wherein each of the frames  
25       includes an axle, and each of the brackets includes a collar installed  
26       on corresponding one of the axles.

- 1 10. The beach chair according to claim 9 wherein each of the brackets  
2 includes a rod connected between the collar and the backrest and  
3 another rod connected between the collar and the seat.
- 4 11. The beach chair according to claim 10 wherein each of the brackets  
5 includes a reinforcement plate connected between the rods.
- 6 12. The beach chair according to claim 7 wherein each of the frames  
7 includes a rear leg, a front leg and an armrest connected with both of  
8 the front and rear legs.
- 9 13. The beach chair according to claim 12 including two brackets each  
10 for connecting corresponding one of the armrests with the support.
- 11 14. The beach chair according to claim 13 wherein each of the frames  
12 includes an axle installed on the armrest, and each of the brackets  
13 includes a collar installed on corresponding one of the axles.
- 14 15. The beach chair according to claim 14 wherein each of the brackets  
15 includes a rod connected between the collar and the backrest and  
16 another rod connected between the collar and the seat.
- 17 16. The beach chair according to claim 14 wherein each of the brackets  
18 includes a reinforcement plate connected between the rods.
- 19 17. The beach chair according to claim 12 wherein each of the frames  
20 includes a rod connected between the front and rear legs.
- 21 18. The beach chair according to claim 12 including a rod connected  
22 between the rear legs of the frames.
